Nilay Upadhyay

Artificial Intelligence and Machine Learning Engineering **B.E**
L.D. College Of Engineering Male
nilay.upadhyay20@gmail.com | +91 8238604225 | Nilay Upadhyay | Nilay-20

Examination	University	Institute	Year	CPI/%
Graduation	GTU(AIML)	LDCE, Ahmedabad	2022-26	8.21
HSC	GSEB	SHETH C.N. VIDYALAYA	2020-22	82.76
SSC	GSEB	SHETH C.N. VIDYALAYA	2020	89.33

PROJECTS

- **Maternal Health Risk Prediction** (view) (Apr'25)
  - **Tech Stack**: Python, scikit-learn, pandas, seaborn, matplotlib
  - Built a machine learning model to predict maternal health risk levels (Low, Mid, High) using KNN and Random Forest algorithms. Performed data preprocessing, feature scaling, and EDA. Achieved over 83% accuracy with Random Forest. Integrated cross-validation and confusion matrix for performance evaluation. (https://github.com/Nilay-20/Maternal-Health-Risk-Prediction.git)
- **Poetic Text Generation (LSTM)** (view) (March'25-May'25)
  - **Tech Stack**: Python, TensorFlow, Keras, NumPy
  - Developed a character-level text generator using an LSTM-based neural network trained on Shakespeare's works. Implemented a temperature-controlled sampling technique to produce stylistic and creative poetic outputs. Handled text preprocessing, one-hot encoding, model training, and generation logic. (https://github.com/Nilay-20/Poetic-Text-Generator.git)
- **Vendor Performance Analytics** (view) (June'25-Present)
  - **Tech Stack**: SQL, Python, Power BI, Reporting
  - Currently working through an end-to-end vendor performance analytics case study—from data extraction and SQL querying to Python analysis and Power BI dashboards—to develop practical insights and reporting experience. (https://github.com/Nilay-20/Vendor-Performance-analytics.git)

TECHNICAL SKILLS

- **Programming & Scripting Languages**: Python, SQL, C++, HTML, CSS
- **Tools & Libraries**: Excel, Tableau, Power BI, Matplotlib, Seaborn, scikit-learn, TensorFlow, Keras, PyTorch, Pandas, NumPy, Git, Jupyter Notebooks, Google Colab
- Practicing problem-solving skills in DSA in C++

WORK EXPERIENCE & INTERNSHIPS

- Summer Intern | CSRBOX (IBM-SkillsBuild) July'25 (15 days)
  - **Project**: Financial Data Dashboard
  - **Tech Stack**: Excel, Tableau
  - Completed a short-term internship focused on data analytics fundamentals. Gained hands-on experience with Excel for data cleaning and analysis, and built an interactive Tableau dashboard using a finance dataset to visualize key performance indicators and trends.

ACHIVEMENT

- Led 30+ students as Music Representative of LDCE's cultural club Dhanak for 2 years, showcasing leadership, event management, and public speaking skills.

AREA OF INTEREST

- *Generative AI*
- *Nueral Networks*
- *Business Data Analytics*
- *Data Science*
- *Leadership & Public Speaking*

HOBBY

- *Music / Composing*
- *Editing & VFX*
